	The course is well organized, and chapters with a lot of content are divided into two or three parts to help us learn better.	
	I really enjoyed this class and how well it was organized and structured. Some of the content are a bit tough, but the professor is always there if you have any questions.	
	Keep up the great work	
	None at the moment I think everything done was the appropriate amount of work needed.	
	The demonstration videos were very helpful and made completing the homework assignments easier.	
	Wonderful class, well run.
