

## Joining Zoom Meetings from Canvas

1. Students can join Zoom meetings scheduled from a Canvas course by clicking on the “Zoom” link in your course navigation. Click “invitation” next to the upcoming meeting to retrieve the meeting’s password, if necessary. A join link will also appear next to all scheduled meetings.

The screenshot shows the Zoom web interface. On the left is a navigation menu with 'Zoom' highlighted. The main content area shows the 'Upcoming Meetings' tab. A table lists a meeting: 'My Class Meeting' starting 'Today 3:00 PM' with meeting ID '947 4302 8602'. 'Join' and 'Invitation' buttons are visible next to the meeting entry.

2. Zoom meetings that are scheduled within Canvas will be added automatically to your course’s Canvas calendar. This is available for instructors and students. A link to join a scheduled meeting is included within the Canvas calendar event.

The screenshot shows a calendar view with a pop-up window for a meeting. The meeting is titled 'My Meeting' and is scheduled for 'Mar 19, 1pm - 2pm'. The calendar is 'Evan's Training Course' and the location is 'Zoom Online Meeting'. A link is provided: 'Click here to join Zoom Meeting:206-126-249'. There are 'Delete' and 'Edit' buttons at the bottom of the pop-up.

3. Students also receive Canvas messages once a Zoom meeting is scheduled from within a Canvas course. These messages include the date and time of the meeting, as well as a link to join the meeting.

The screenshot shows a Canvas message inbox on the left and a meeting details view on the right. The message inbox has two messages: one at 12:01pm about 'My Meeting' and one at 10:11am about 'Test Meeting (Using Vanity URL)'. The meeting details view shows the meeting title 'My Meeting', host 'Evan West', time 'Mar 19, 2020 1:00 PM, America/Chicago', and join URL 'https://colum.zoom.us/j/206126249'.
